	ADVANCES on account of Indian Investment for Europe.	ADVANCES in India applied to the purchase of Investment for Europe.	TOTAL AMOUNT of Advances made at the several Presidencies and Settlements in India, for the purposes of Commerce, in so far as regards the purchase of Investment for Europe.	Of which

So far as Adjustments are completed in the Company's General Books in England.					

Memo.—The Advances in India and China, for the provision of Commercial Investment being made generally, as well without distinction in respect to the ultimate destination of such Investment, as without reference to the particular source from which the Funds for its provision are derived, the above Account is, of necessity, in a great measure formed upon computation.

A portion of the Advances in India, for the China Investment, may be regarded as applicable to the purchase of the Teas which have been supplied by the Company to the North American Colonies, but as the proceeds of these Consignments are intended for eventual realization in England, they have been considered, in framing the above Account, as falling under the description of Investment for Europe.

On the other hand, Advances applied, both in India and China, to the provision of Cargoes for the Cape are excluded; the proceeds of these Cargoes having been applied at the Cape to the supply of St. Helena and other Territorial Services.

* This Balance is subject to reduction by the Amount of the Advances made in India from the Territorial Branch to the Commercial Branch, in the Indian Official Year 1831/32; the documents whereby the amount of these Advances is to be ascertained, have not as yet been received from India, but which it is estimated may amount to £. 2,614,498, which will leave a Balance due to the Commerce of £. 4,624,205, including Interest.

The Balance due to the Commercial Branch is also subject to adjustment with reference to the Amount with which the Territorial Branch is chargeable, in respect of the loss upon Consignments of Merchandize, made with a view to meet the demands upon the Home Treasury for Bills of Exchange drawn for Interest of India Debt, in conformity with the plan of 1814, for the arrangement of the Home Accounts.

In the period from 1st May 1814 to 1st May 1832, there has also been advanced or set apart from the Surplus Commercial Profits in England, the sum of £. 4,998,798, towards the liquidation of Indian Territorial Debt, which being a payment under the 4th Head of Appropriation of 57th sec. of 53 Geo. III. is not held to constitute a claim upon the Territorial Department for repayment, upon the principle observed in respect to other Territorial Advances.

In the above Statement, the amount of the Outstanding Home Bond Debt has not been placed to the separate Account either of Territory or of Commerce; but according to a letter from the Court of Directors to the Board of Commissioners, under date the 10th March 1832, this Debt is held by the Court to be Territorial.

In the above Account, the article of Dead Stock is valued at £. 400,000, which includes Buildings and Fortifications, Plate, Household Furniture, Plantations, Farms, Sloops, Vessels, Stores and other Articles of Dead Stock, according to Lord Godolphin's Award in the Year 1702; whereas the whole of the sums of money expended in Buildings and Fortifications, by the latest advices from the Company's several Settlements, for the acquisition and maintenance of their Possessions, and the nearest estimated value of other Articles of Dead Stock, is as follows:
